## DETAILED ACTION

### *Double Patenting*

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claim 1 rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1 of U.S. Patent No. 6,185,735. Although the conflicting claims are not identical, they are not patentably distinct from each other because it would have been obvious to modify claim 1 of patent 6,185,735 to get claim 1 in the instant application.

Regarding claim 1, claim 1 in the instant application corresponds to claim 1 in 6,185,735. The claimed steps of permitting access and preventing access in claim 1 of the instant application equates to the claimed steps of permitting access and preventing access in claim 1 of 6,185,735. However, the steps of permitting access and preventing access in claim 1 of 6,185,735 recites the additional limitation that the first and second

providers are cable providers. Since claim 1 in the instant application is a broader recitation of claim 1 in 6,185,735, it would have been obvious to one skilled in the art to modify claim 1 in 6,185,735 to get claim 1 in the instant application.
